Opportunities and what I'd do

Priority	Opportunity	Why it matters	What I'd do
High	**No website on the listing**	People shopping for tires want to see brands and prices before they drive over.	Build a simple site with services, hours and a call button.
High	**Newest reviews have no replies**	None of the eight newest had a reply when checked.	Reply to recent reviews, then every new one within a week.
Medium	**Weekend hours aren't promoted**	Sunday hours are a real advantage that only shows in the hours table.	Mention Sunday hours in the description, posts and site.
Low	**Only 7 photos**	More photos of stock and the shop build trust.	Add photos of tire stock, bays and the waiting area.

See what a simple site could look like. I built a free sample page for Quick Tires at **mymabry.com/previews/quick-tires**. It uses only what is already on your Google listing, and it is hidden from search engines. It is yours to keep or ignore.

Every item above is something you can fix yourself. If you'd rather hand it off, my Google Presence Optimization service takes care of it for a flat monthly fee, with no long-term contract. Reply to my email or call the number in my signature and I'll walk you through it.
